SOFTWARE DEVELOPER

Highly motivated and results-oriented military veteran with a strong technical background and disciplined work ethic. Experienced in fast-paced, high-responsibility environments with a proven ability to adapt quickly, solve problems, and learn new technologies. Solid foundation in software engineering, supported by bachelor's degrees in Interpreting and Power Engineering. Fluent in English and Russian. Reliable team player with a strong commitment to professional growth and continuous learning.

CORE QUALIFICATIONS

- Programing in C#
- Programing in Node.js
- Programing in HTMLS with JavaScript and CSS3
- Vue.js
- Azure Development
- ASP.NET Core MVC Application Development
- Teamwork and Creativity
- Customer Focused
- Training & Mentorship

PROFESSIONAL EXPERIENCE

Participant, Microsoft Software and Systems Academy (MSSA)

Microsoft, Virtual - Jan. 2026 – May 2026

Focused and studied Cloud Application Development, learning to design, write, build, and support applications and programs. Gained fundamental skills in C#, SQL, CSS, and HTML. Learned conceptual frameworks for Web Applications development, ASP.NET MVC, and Azure Application Development.

- Built, modified and ran 100s of queries against T-SQL databases via SQLite3 and SQL Server Management Studio for data analysis and interpretation.
- Successfully built a fully functional web application using ASP.NET Core and MVC design patterns.
- Gained foundational knowledge on executing full life-cycle software development and code development.

New York National Guard (NYNG) - Mar. 2023 – Mar. 2026

133rd Composite supply company

Joint Task Force NYNG Support to Department of Corrections and Community Supervision (DOCCS) Feb. 2025 – Jan. 2026

Asylum Seekers Resources Support Mission Oct. 2023 – Aug. 2024

IBA Group - Sep. 2021 – Nov. 2022

Software Engineer Minsk, Belarus

Projects: Marsh McLennan, Wealth Data Automation Sep. 2019 – Nov. 2022

Vue.js, JavaScript, Sass, HTML, Node.js, Python, MongoDB, Jira, Jenkins, Bitbucket.

- Implemented new features, improving system performance by 15%.
- Participated in agile meetings, contributing to sprint planning and task assessments.
- Developed comprehensive documentation for new and existing features and knowledge transfer.
- Collaborated with team members using Bitbucket for version control and task management.
- Developed unit tests, reducing bug detection time by 30%.
- Utilized Jenkins for continuous integration, automating code builds and test processes.

State Energy and Gas Supervision Authority - Aug. 2019 – Aug. 2021

Inspector for Thermal Installations and Energy Equipment

- Conducted inspections of industrial and commercial thermal installations, boiler systems, and energy equipment to ensure compliance with national safety and regulatory standards.
- Evaluated technical documentation, operational procedures, and maintenance records for energy facilities.
- Identified safety violations and issued corrective action reports, improving regulatory compliance across sites.
- Participated in commissioning and acceptance procedures for newly installed energy systems.

EDUCATION

- Bachelor of Computer Science, The City University of New York, New York, NY – Jan. 2024
- Bachelor of Power Engineering, Belarusian National Technical University, Minsk, Belarus – Jun. 2019
- Bachelor of Modern Foreign Languages, Academy of Postgraduate Education, Minsk, Belarus – Jan. 2019
